NEWS ITEMS OF INTEREST.

A justice of the peace has been arrested at New York, N. Y., on a charge of grave robbery.

Several girls at Hagerstown, Ind., tattooed their legs with the figure of a garter. The coloring matter proved to be poisonous, and one of the sufferers is in a critical condition.

The Rev. Henry Morgan, of Boston, has formally warned Archbishop Williams that prosecution at law will follow if lotteries are permitted as a coming Roman Catholic church fair.

Mary Dean, who made her entry into Indiana six years ago in a Bloomer costume, with a revolver displayed at her belt, and became a public speaker on woman's rights, now returns to a prison as a thief.

The marriage notice of J. S. Hahn, in the Ogden (Kan.) newspapers, was printed in the same column with that of his death. Miss Harris, learning that he was dying there, hastened from Kansas City to become his wife.

Assistant Postmaster New, of Pittsfield, Mass., added \$1000 to his income in a year by removing fresh postage stamps from letters, putting on those that had been used, and selling the stolen ones. He used the money in maintaining his social pretensions.

A woman inmate of an asylum for the insane, at Marysville, Cal., imagining that she was imprisoned by enemies, and that pen and ink was denied her, made a statement of her case in needle work on a piece of cloth and threw it out of the window.

It is becoming a fashion in Europe to travel in private railroad cars. The Baroness N. de Rothschild owns one that cost \$20,000, and the Countess Potocki has ordered one at \$25,000. These vehicles are smaller than American cars, but are very elegant.

The Chinese are doing religious missionary work in a way that must make Christians feel uncomfortable. The people of the Chinese province of Yuman are in part Mohammedans. An imperial decree offers freedom from taxation to every Mohammedan who renounces his faith and swears by Confucius. Beautiful new idols are also to be given as rewards for proselytes.

Two Chicago men went on a week's tour which involved an irregular tour through the west. One morning they awoke in a hotel, with a dazed notion as to what city they were in. One said St. Louis and the other Cincinnati. They bet \$100 as to which was right, and neither won, for the bell boy informed them they were in Milwaukee.

A commission from Congress is not highly desirable to an artist, according to the Boston Transcript, which says: "When a painter gets an order for a \$10,000 picture, for example, he is expected to paint gratis the portraits of members of Congress who voted him the job. There are often, also, expenses incident to the procuring of such commissions. In consequence, about three-fourths of the profits are dissipated, and a \$10,000 government commission is worth really about \$2500."

Haynes set himself up as a religious leader in Texas, even claiming to be a divinity sent to earth to take charge of all spiritual affairs. He said that he was physically, invulnerable, and it was impossible for anybody or anything to hurt him. His converts, of whom there were hundreds, believed his pretensions, and it was said that a bullet fired at his breast had dropped harmlessly at his feet. But there were scoffers at Corsicana, and they rode Haynes on a rail. His miraculous power failed him in this emergency.

Charles A. Showe, a Chinaman, became a tea merchant in Boston thirty years ago, married an American wife, grew wealthy, and mixed in the best society. Highly he visited his native land and returning, says to the Boston Herald: "Everything in China seemed almost as strange to me as did to me when I first came to Boston." He found few social changes, however. "Individual taste, if it leads to a deviation from the set forms of society, is frowned down, and so long as this feeling is prevalent in China, so long are its people slaves to custom, opinion and usage."

The Liquor Laws of Germany.

They have no civil damage act in Germany, but even there the necessity of some restriction upon the sale of alcoholic liquors to such as have not sufficient discretion to use them properly seems to be conceded. In various districts, by authority of general orders proceeding from the government, the police have prohibited tavern keepers from selling or otherwise furnishing to minors under the age of 16, apprentices, or persons mentally deranged or weak any distilled spirituous liquors of whatever description, and a similar prohibition will apply to sales to confirmed drunkards, whenever the names of these latter have been given to the liquor dealers with a proper caution. Disobedience of these orders will be punishable by fine and imprisonment; but they are not intended to apply to the sale of beer, the consumption of which has never been found to cause injury to anybody. The police orders are to be posted in a prominent place in every tavern. This news must make German liquor sellers in America feel less persecuted and forlorn.

A STRANGE CASE.

A man convicted of a murder for which another man was hung.

From the New York Sun.

Charles W. Cook, the youth whose evidence procured the conviction and execution of Joseph B. Buzzell, as accessory to the murder of Susan Hanson, at Brookfield, N. H., has himself been sentenced to thirty years' imprisonment as principal in the crime. Buzzell, who was a man of some property and of respectable family, had been on intimate terms with Miss Hanson, but had changed his mind and abandoned her. Miss Hanson determined upon a suit for breach of promise of marriage, and while sitting in her house, on the night before the day on which the proceedings were to have been instituted, she was shot dead by some unseen person. Buzzell was indicted for the murder, and tried and acquitted. Two Boston detectives then took up the case, and succeeded in frightening Charles W. Cook.

A YOUTH WHO WORKED FOR BUZZELL,

into a confession that he had done the shooting at the instigation of his employer. Upon this statement Buzzell was again arrested, indicted, convicted as accessory, and sentenced to be hanged. After the conviction Cook recanted his testimony, and subsequently retracted his retraction. Serious charges were likewise made against the Boston detectives, and one of them is now serving a term for an offence perpetrated in Massachusetts. It was also urged that Buzzell had, in fact, been convicted of a crime of which he had previously been acquitted.

Buzzell himself never made a denial of having been concerned in the murder, and perhaps Cook's original confession was substantially true, and Buzzell planned the deed, but was not present when Cook shot the woman. Notwithstanding all the efforts in his behalf, Buzzell was hanged, and now the actual murderer goes to state prison virtually for life.

SIR ASTLEY COOPER'S VITAL RESTORATIVE.

The great English remedy—has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, insatiate, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a quack nostrum, and produces results that are wonderful.

Why will you suffer? Send to A. E. Mistic, M. D., No. 11 Kearney street, San Francisco, or the Restorative, and be cured. Price, \$3 per bottle. Four times the quantity, \$10. Try a bottle. Dr. Mistic treats all private cases successfully.

By R. L. FULTON

TERMS OF SUBSCRIPTION:
Daily, one year (by mail) \$6.00
Weekly, one year (by mail) \$2.50
Daily, delivered by carrier in Reno at 25 cents per week.

The Gazette has twice the circulation of any paper published in Washoe county. Hence it is an excellent advertising medium.

ONE ADVERTISEMENT.

We call attention to our advertisement which appears to-day. We do not think a better offer was ever made, or one which will prove more satisfactory to those who take advantage of it. There is not a paper in Nevada which is extending its circulation as rapidly as the GAZETTE. The public has recognized our efforts to make a good paper and has responded with a support which is very flattering. Far from being satisfied, however, we are more ambitious than ever to make the GAZETTE the paper of western Nevada. There has not been a month in the last year in which some important improvement has not been made in some department. The GAZETTE just now stands so that the least improvement in the business of the town will enable us to take telegraphic news and make the best paper Reno ever had. Our acts in the past are a sufficient guarantee to the people of this community that we will do so at the earliest possible moment. We have tried conscientiously to earn all the money that has come in, and not tried how much we could squeeze out of the patrons of the paper at the smallest possible expense. We have had faith in Reno, and we have it yet, and we have tried to see how good a paper we could make with the patronage we received, believing that the result in the end would be satisfactory.

STATISTICS OF AGRICULTURE.

A census will be taken in the United States next June. In addition to figures relating to population the canvassers will gather statistics concerning crops and dairy products. The Superintendent of the census has sent out a circular, from which the following paragraph is quoted, and it is to be hoped that the farmers throughout the land will give the matter due attention:

"In view of the requirements of the law, and of the great importance of accurate statistical information relative to agriculture, it is deemed to be highly desirable that farmers should prepare themselves in advance to give the information with promptness and accuracy. It is urgently recommended, therefore, that agricultural journals and the officers of agricultural societies and clubs give publicity to this announcement, and that all persons engaged in agriculture who shall receive this circular, or shall see it in the public prints, make note from time to time of the quantities and values of their several crops gathered, and the number of acres of land planted, in order that their statements, when made to the enumerators, may be of the highest possible value."

EDITORIAL NOTES.

The newspapers seem to be getting up a boom against "bangs." Banged hair is certainly not generally admired by sensible people. Still, no matter how it is arranged, the crowning glory of a woman is her (or some other woman's) hair.

"I had such a respect for Mrs. Grant, as a wife, as a mother, as a grandmother, but it surely wasn't the thing for her to appear at the Sharon reception in a white silk out low in the neck, with short sleeves and four bracelets on one arm," says Kate Heath.

A Woman Burned to Death.

SAN FRANCISCO, Nov. 3.—About 9 o'clock Sunday evening a fire broke out in an old wooden bakery occupied as a saloon and restaurant and lodging house, corner of Pacific and Davis streets. When the fire was extinguished, the body of the wife of Robert Graves was found, nearly consumed. Her husband was found in the hall very badly burned, and he is likely to die from his injuries. The fire is supposed to have occurred from the upsetting of a lamp in Graves' room.

Locomotives are used on canal towpaths of France. They are of light build, not weighing over four or five tons, and are managed easily by one man. Barges are thus drawn at a speed of two miles an hour, about twice the mean rate of a horse on the towpath. Any empty vessel is drawn six miles an hour, but a greater speed would damage the banks of the canal.

Suicide.

A distinguished scientist once said: "No man with a strong and healthy stomach ever committed suicide;" and yet many are suffering the tortures of the damned with Dyspepsia, when a single bottle of Dr. Minott's English Dandelion, Liver and Dyspepsia Pills will give relief; and, if persisted in, will cure the worst case of this distressing trouble. This pill cures Torpid Liver and Biliousness, regulates the bowels, removes pimples from the face, cures sallow complexion, foul breath, sick headache, heartburn, pain in the sides and back; is sugar-coated, and guaranteed to be PURELY VEGETABLE. It acts directly upon the coating of the stomach and on the liver; can be taken in any climate—wet or dry weather. Beware of imitations. The genuine has an engraving of a lion on the outside wrapper. Price 50 cents. For sale by Osburn & Shoemaker, druggists.

How to Save Money.

Instead of going to a doctor for a prescription, if you have Bright's disease, Diabetes, Pain in the back and loins, Smarting, Indigestion, Calculus, Brickdust deposit, or any trouble of the Kidneys or Bladder, buy a bottle of Dr. Mintz's NEPHRITIC, the great Buchu Compound. It is the most wonderful prescription ever compounded for these troubles. Messrs. Abrams & Carroll, wholesale druggists, say: "We regard Nephriticum as the best Kidney and Bladder Remedy in the market." Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, Oregon, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors have given them up. For sale by Osburn & Shoemaker. Price \$1.25.

JOTTINGS.

The Steamboat ditch will be completed before the end of the month. White fish are said to be biting freely in the river at Truckee. A fine new billiard table has been set up in the Wine House. Justice Young intends to shortly remove his office to the Journal building.

Mr. Snare—Please call at Mr. Bragg's lumber office.

B. F. BACON.

County Treasurer Boyd says that taxes were being rapidly paid in today.

J. J. Becker advertises the finest beer, best liquors, cigars and a free lunch. Read his notice.

An Indian was seen yesterday hard at work sawing wood. This is an unfailing sign of winter.

Mrs. B. B. Norton leaves Reno tomorrow morning to make her home in Virginia. She was around town today exchanging good-byes.

A. Rensburg, who drives Buckey's wagon, sprained his back the other day and is quite lame.

A. J. Anderson killed 80 ducks at Webber Lake last Monday. Ducks are said to be plentiful there now.

Joe's soda factory has been removed to the basement of Lake's building on Virginia street, close to the bridge.

An assessment, No. 18, of 30 cents a share has been levied on Highland Ditch stock, destined Dec. 5, day of sale, Jan. 6, 1880.

At the Jones & Kinkaid mine the machinery and boiler from the old Brooklyn mine have been set up and a house built over the works.

Rev. W. Carver, the M. E. presiding elder of Reno district, will hold a quarterly meeting for Modoc circuit in Alturas next week.

The ladies are anxious to have a good attendance at the Baptist Church to-night. It is a good cause, and a few bits will not be missed by those who attend.

A good deal of fault is found with the obstructions on McFarlin's corner. Everyone who has a wagon to repair hauls it up and leaves it in the street, which swells the evil. Mc is fixing a place behind his shop to pile lumber and store iron and scrap, and as soon as he can, will clear the street and keep it so.

OPENING THE NEVADA CENTRAL.

THE EXCURSION TRIP IN HONOR OF THE EVENT.

EDITOR GAZETTE.—On the afternoon of the 2d inst. the fact became known that the managers and contractors of the new Nevada Central Railroad were going to the terminus, it being a distance of twenty-five miles on the way to Austin, and a general invitation was extended to the citizens of Battle Mountain to take a free ride out and back, this being the first passenger train ever run over this road. A host of the citizens joined in the excursion, and made up a first class passenger train. Among the passengers could be seen General Ledlie with his corps of clerks, Col. Bridges with his staff of engineers, and Messrs. Steel, Blossom and family; also his partner Mr. McGregor. Last, though not least, Mr. W. M. Mason of Chicago, the manufacturer of the celebrated grading machines. Mr. Mason

KICKS THE BEAM AT 315 POUNDS and was accompanied by his Liliputian friend Dr. Springsteen; whose weight assures him that he is as big as anybody. After the ladies were all comfortably seated the fear arose for the safety of the new car, when suddenly he felt a tremendous tug on his line. "A salmon!" he yelled, springing to his feet and grasping his line with both hands. Something was evidently pulling with great force on his hook. Yielding to the strain, the boat began moving through the water with rapidly accelerating speed. "It must be a whopper" said the doctor, now full of excitement. Every moment the speed of the boat increased, and the taut line, rigid as a piece of wire, cut through the water like a knife.

BORING FOR WATER,

sinking an artesian well. They already have gone to the depth of 235 feet, and have sanguine hopes of finding water here. We cut off a car or two and then proceeded on our way to the end of the road, five miles farther, when we returned home to Battle Mountain. To say it was not a pleasant trip would be an injustice to the kind managers and ourselves, for we had just a splendid time. By the use of the Mason Grading Machine they are enabled to shave the work at a very rapid rate. It appears to be a great deal cheaper and save a great number of men. To-day nine carloads of freight came on the C.P.R.R. to be transferred for Austin, and are being loaded on the Nevada Central to be carried out twenty-five miles, thence to Austin by big teams. The managers of this new road are entitled to great credit for their efforts to rapid completion, and we predict that by the beginning of the new year the iron horse will be snorting, and will awaken the quiet citizens of Austin at that early day.

BATTLE MOUNTAIN, Nov. 3.

CHASING THE TRAIN.

This morning, when the train pulled out for Virginia, a San Francisco drummer, who had been scouring the town for business, found himself left behind. As he saw the train moving out, he started in pursuit, greatly to the amusement of the bystanders. The drummer wore a long, striped ulster, and as he ran down by the station, he suggested to the spectators the idea of a zebra running against time. The dust flew from between the rails as his feet sped over the ties, and the boys cheered enthusiastically at sight of the unwonted spectacle. In the height of his mad career the striped drummer came to grief. The sharp toe of one of his long pick-axe shoes caught under a projecting tie, and he described a magnificent somersault on the track. He was still running, through, when he struck his gait again, and seemed rather to have gained by the break. The engineer caught sight of the pursuing figure and slowed down the engine. At last the determined drummer reached the train, and climbed upon the rear platform amid the cheers of the spectators.

AN ADVANTAGE TO A TOWN.

It does a town good to have a few live men in it; the more the better. The Abrahams Bros have built up a magnificent business and have added just that much to the importance of Reno. If they extend their operations still further the whole community will feel the good effects. With a first-class clothing house where a man can fit himself out from top to toe there is a greater inducement for a man to come here to sell his wools, his hogs, his cattle, and when he comes the hotels and churches are liable to receive some benefit from his visit. A few more such men as Sonderland, Abrahams and Meyerstein, who push their goods into every quarter of the state would in time make Reno what her natural advantages indicate she will be sometime, the commercial capital of Nevada. Then they would probably be merchant princes with vast wholesale stores, and perhaps immense factories on the river bank.

ANOTHER BENEFIT.

The Modoc Independent says that Judge Bowmer is busy at work putting his house in readiness for his son, Harry, who will shortly arrive from Reno. Rumor has it that "Jack" will not come alone but will bring with him a life companion. The young couple will find a splendid home awaiting them when they arrive.

SPORT AT PYRAMID.

TWO CITIZENS SPEND A DAY AT PYRAMID AND MAKE A SPLENDID CATCH—THE LAND A MONSTER FISH.

Dr. Hogan and J. Sullivan returned last night from a flying trip to Pyramid Lake. The Doctor's professional duties called him that way, and he determined to improve the opportunity and catch some fish. Mr. Sullivan was also obliged to visit Pyramid, to look after some cattle, so the two joined forces and went together. On arriving at the lake they camped by the shore and remained a day, the longest time either could spare from business. They hired a boat and an honest fisherman, and went trolling on the lake. They used minnows for bait, trolling with hooks trailing astern through the crystal water. The fish took the bait eagerly, and they secured about a hundred fine trout. The largest trout caught weighed only five pounds, while the average weight was about three pounds to each fish.

A MONSTER OF THE DREEF.

Their excursion was not, however, destitute of adventure. Dr. Hogan was sitting complacently in the stern of the boat, admiring the grand scenery spread out around him, when suddenly he felt a tremendous tug on his line. "A salmon!" he yelled, springing to his feet and grasping his line with both hands. Something was evidently pulling with great force on his hook. Yielding to the strain, the boat began moving through the water with rapidly accelerating speed. "It must be a whopper" said the doctor, now full of excitement. Every moment the speed of the boat increased, and the taut line, rigid as a piece of wire, cut through the water like a knife.

THE FISH WAS TOWING THEM.

straight for one of the pyramidal islands in the center of the lake. Sullivan and the Doctor now tried to haul in on the line, but such was the strain upon it, that they could not even lift it from the water. Nearing the rocks, the monster fish turned to his course, and swam in a circle that carried the boat round and round the island with lightning speed. The hardy fisherman said he had never had such an experience in his life. Soon all hands in the boat became dizzy from the rapid revolutions they were making round the island, and at length they all sank insensible in the bottom of the boat. When they came to, the boat had ceased its motion, and was lying a short distance off the shore, apparently anchored to the bottom of the lake. The Republican majority is safely estimated at 33,000, and with strong probabilities of 24,000. The Assembly and Senate are strongly Republican.
